

Synthetic Quartz Bars

High Durability / High Purity Quartz

Synthetic Quartz Crystal for optical usage, which is suitable for high output lighting source **in Ultraviolet**.

TEW-AGC Joint patent obtained

Appropriate Application:

Wavelength Plate for Laser Device, Semiconductor Exposure Apparatus,
 Liquid Crystal Exposure Apparatus
 Replace *Silica glass* for the high output light source in Ultraviolet

Supersized Quartz

Special SEED enables to grow supersized synthetic quartz crystal.

Appropriate Application:

Window material for atom nuclear fusion reactor
